ABOUT STEELNOVA

SteelNova Industries is a global leader in precision engineering and high-end industrial manufacturing. With a legacy of over 18 years, we have consistently pushed the boundaries of technological innovation to deliver robust solutions across various sectors including Oil & Gas, Power, and Infrastructure.

Our Mission: To empower global industries with precision-engineered products and innovative manufacturing solutions that drive efficiency, safety, and sustainable growth.

CORE VALUES

Quality Excellence • Integrity & Transparency • Innovation • Customer Satisfaction • Safety First • Sustainable Growth

1500+
Projects Completed

25+
Countries Served

18 Years
Industry Experience

600+
Skilled Employees

450+
Happy Clients

24/7
Technical Support

"Engineering Tomorrow with Quality, Innovation & Precision."

OUR PRODUCTS

Precision Engineered Products for Every Industry

Our comprehensive range of high-performance engineering components is designed to meet the most stringent international standards for quality and durability.

Industrial Valves

Heavy-duty control and isolation solutions for fluid systems.

- API 6D • ISO 5211
- CE Marked

Pipe Fittings

Seamless and welded fittings for industrial piping networks.

- ANSI B16.9 • ASTM A234
- MSS SP-75

Industrial Flanges

Forged steel flanges for high-pressure applications.

- ASME B16.5
- EN 1092-1 • JIS B2220

Fasteners

High-tensile bolts, nuts, and studs for structural integrity.

- DIN 933 • ISO 4014
- ASTM A193

Steel Components

Custom-machined steel parts for industrial equipment.

- Carbon Steel
- Stainless Steel • Alloys

Custom Fabrication

Specialized engineering structures built to client design.

- Modular Units
- Skids • Support Frames

PRODUCT ADVANTAGES

- ✓ High Precision Manufacturing
- ✓ Premium Quality Materials
- ✓ Corrosion Resistant
- ✓ International Standards
- ✓ Custom Engineering Solutions
- ✓ Reliable Performance

Manufactured with Precision. Delivered with Confidence.

MANUFACTURING INFRASTRUCTURE

Advanced Technology • Precision Engineering • World-Class Manufacturing

CAPABILITIES: CNC Machining, Precision Fabrication, Welding, Surface Finishing, Inspection, Logistics.

QUALITY ASSURANCE:

- ✓ Raw Material Inspection
- ✓ Dimensional Inspection
- ✓ Precision Testing
- ✓ Final Quality Check
- ✓ Secure Packaging
- ✓ On-Time Dispatch

WORKFLOW:

Compliance Standard		Technical Requirements
	ASME / ANSI	Pressure Vessel & Piping Codes
	ASTM / DIN	Material & Geometric Specs
	ISO 9001	Manufacturing Practices

CNC MACHINING

FABRICATION & WELDING

LARGE SCALE FABRICATION

PACKAGING & LOGISTICS

Modern Production Facility

Skilled Engineering Team

Strict Quality Control

Timely Delivery Assurance

QUALITY INSPECTION LAB

A high-tech quality inspection room where a lab technician uses laser measurement tools on a polished steel component, sterile white laboratory environment with blue accents.

WHY CHOOSE STEELNOVA

Your Trusted Engineering & Manufacturing Partner

Why Customers Choose SteelNova

SteelNova Industries is committed to delivering engineering excellence through innovation, precision manufacturing, and exceptional customer service. We build long-term partnerships by consistently providing reliable industrial solutions that meet international quality standards.

Our Key Strengths

Precision Engineering

Manufactured with advanced technology and strict quality control.

Modern Manufacturing

State-of-the-art production facilities equipped with modern machinery.

Global Standards

Products manufactured according to internationally accepted engineering practices.

On-Time Delivery

Efficient production planning and reliable logistics ensure timely project completion.

Expert Engineering Team

Experienced professionals dedicated to delivering customized industrial solutions.

Customer-Centric Approach

Every project is handled with complete transparency, technical support, and long-term commitment.
