Safety Guidelines

Purpose

Safety is our highest priority. These guidelines help ensure safe manufacturing, handling and workplace practices.

Personal Protective Equipment (PPE)

Always wear safety helmet, safety shoes, gloves, eye protection, hearing protection and reflective jackets where required.

Machine Safety

Only trained personnel may operate machinery. Inspect guards before use. Never bypass safety interlocks.

Material Handling

Use approved lifting equipment. Follow load limits. Store materials securely.

Fire Safety

Keep extinguishers accessible. Know emergency exits. Report fire hazards immediately.

Electrical Safety

Only authorized electricians may perform electrical work. Lockout/Tagout procedures must be followed.

Emergency Response

Report accidents immediately, provide first aid, evacuate when instructed, and assemble at designated muster points.

Housekeeping

Maintain clean work areas, remove spills promptly, and keep walkways unobstructed.

Environmental Responsibility

Dispose of waste properly, prevent spills, and comply with environmental regulations.
